No. 1239.

Vienna, May 26. O. S.

AT a Time that the Publick least of all expected it, an Expreſs is juſt arrived at Court, with Advice, that 30,000 Ruſſians, all pick'd Soldiers, are marching directly over the Poliſh Territory for Tranſilvania: And the General Raitski, who made the laſt Campaign in the Army of General Munich, and accompany'd him this Year to Kiow, and is now return'd from thence, was the Man that ſettled every thing that related to the ſaid March with the Ruſſian General. It appears now that the Reports of the Czarina's having already paid a Part of the Money which 'twas ſaid the Emperor had accepted as an Equivalent in the Place of thoſe Troops, ſeem only to have been propagated with a Deſign to deceive both the Poles and the Infidels. 'Tis true, nevertheleſs, that the Czarina heartily wiſh'd that our Court would have accepted of this Equivalent; and ſhe thought herſelf ſo ſure of it, that before the King of Poland's Departure for Saxony, ſhe made his Majeſty a Promiſe that the Ruſſian Forces ſhould not touch the Territory of the Republick. But the repeated Inſtances of our Court were ſo preſſing, that her Czarian Majeſty could not be excuſed from performing her Engagements on that Score. We foreſee that a good Number of the Poliſh Nobility will take hold of this Opportunity to ſhew their Reſentment againſt Ruſſia; but the Precaution which has been uſed to engage the Pope to exhort the Republick to break with the Infidels, will at leaſt inſpire thoſe Lords with that Caution and Moderation of which his Holineſs gave them an Example when the Spaniards paſs'd and repaſs'd thro' the Eccleſiaſtical State. A Scheme has been preſented to the Court to augment his Imperial Majeſty's Finances to the Amount of 600,000 Florins per Annum, without the leaſt Expence to the Publick, viz. by laying a Tax upon all Games at Hazard.

Dreſden, May 26. O S. Two Days ago the Count Rutowski married the Princeſs Lubomirska, the 3d Daughter of the Prince Lubomirsky, Sword-Bearer of the Crown, and lately promoted to the Dignity of Lieutenant General of the Saxon Cavalry. The Princeſs is of the Proteſtant Religion; as is alſo the Princeſs her Mother; but as the Count is a Roman Catholick, 'tis ſtipulated in the Marriage Contract, that all the Children they have, whether Sons or Daughters, ſhall be educated in the Romiſh Religion. Yeſterday the new-married Couple were introduced to the King and Queen by the Princeſs Lubomirska, the Bride's Mother, and the Counteſs de Fitzthum, her Grand-Mother. N. B The Bridegroom is Lieutenant General of the King's Forces, Colonel of the Life Guards, and of a Regiment of Foot, and Knight of the Order of the White Eagle. The *Baron de Pollnitz*, who in his *Memoirs* gives an Account of the *preſent State* of the Court of Saxony, where no Foreigner could be better acquainted, ſays the Count owes his Birth to the late King of Poland's tender Paſſion for Fatima, a Turkiſh Lady, who was taken Priſoner very young, and from a Slave, became the King's Miſtreſs, but having a great Share both of Wit and Beauty, every Body ſaid ſhe deſerv'd her Fortune. The Baron obſerves, that this Nobleman very much reſembles the late King Auguſtus II. his Father, having his Strength, Dexterity, Valour and Politeneſs. He adds, that he had his Education in France, and from thence went into the Service of Victor Amadeus, the late King of Sardinia; that he afterwards enter'd for a little while into the Service of the King of Pruſſia, but at length fix'd himſelf in that of Saxony, when he diſtinguiſh'd his Valour at the Siege of Dantzick, and afterwards made the Campaign as a Voluntier in the Imperial Army on the Rhine.

NEW ENGLAND.

Boſton, Jan. 29. On Friday the 12th Inſt. his Excellency was pleaſed to make the following Speech to both Houſes of Aſſembly, viz.

Gentlemen of the Council, and of the Houſe of Repreſentatives,

THE Bill you have paſſed for emitting Sixty Thouſand Pounds in Bills of Credit (you are ſenſible) I cannot conſent to, conſiſtent with his Majeſty's Royal Inſtruction to me on that Head.

By my lateſt Letters from London, I find the Affair of the Boundaries between this Province, and that of New Hampſhire, had not come to a Hearing before his Majeſty in Council; as the Peace, Safety, and Welfare of both Provinces are greatly concern'd in this Matter, I think myſelf bound in Duty to his Majeſty, and from a juſt Regard to his People, to recommend to your Conſideration, whether any farther Steps can be taken by this Court for the better expediting what is of ſo much Conſequence, and has been ſo long depending.

Jan. 12, 1738-9. J. BELCHER.

Upon which the following Addreſs was agreed upon by both Houſes, to be ſent to his Excellency, viz.

May it pleaſe your Excellency,

HIS Majeſty's Council, and the Houſe of Repreſentatives in General Court aſſembled, in Conſideration of the near Approach of the Periods when all the Bills of Credit now paſſing will be ſunk, have agreed on a Bill for the Emiſſion of Sixty Thouſand Pounds, redeemable by Silver and Gold; which Bill your Excellency was pleaſed in your Speech of Yeſterday, to inform us you could not conſent to, conſiſtent with his Majeſty's Inſtruction.

Wherefore we his Majeſty's loyal and dutiful Subjects, crave Leave to obſerve to your Excellency, the great and diſtreſſing Difficulties his Majeſty's good Subjects of this Province will be under in ſupporting the Government, and in carrying on their common Affairs and Buſineſs, if the ſaid Bill, or ſome other of that Nature, ſhall not take Effect.

Your Excellency cannot but be ſenſible that for many Years paſt the publick Taxes for the Support of Government have been wholly paid in Bills of Credit, by which Bills alſo the Trade and Commerce have been for near thirty Years almoſt wholly managed; and that the whole of theſe Bills of Credit muſt be intirely ſunk by the End of the Year 1741; and that it will bring great Diſtreſs, if not an intire Stagnation of all Trade, if about two hundred and fifty thouſand Pounds, computed in Bills of the old Tenor, the Sum now Extant, ſhould be in that ſhort Time intirely taken away, and nothing ſubſtituted in its Room, and eſpecially ſince this Court have in their preſent Seſſion for ſupporting the Credit of their own Bills, found it neceſſary to diſcountenance thoſe of the neighbouring Governments, as being not well founded.

We would therefore pray your Excellency's favourable Conſideration of the important Affair, and how much the Safety, Intereſt and Quiet of his Majeſty's Subjects under your Excellency's Care depend on its Succeſs, and do intreat your Endeavours that your Excellency may give your Conſent to this Bill, or a Bill of this Nature, the Bills to be emitted thereby being on a different and much better Foundation than thoſe which occaſioned his Majeſty's Prohibition.

And on the 16th Inſtant his Excellency was pleaſed to ſend the following Meſſage to both Houſes, viz.

Gentlemen of the Council, and of the Houſe of Repreſentatives,

IN Anſwer to your Addreſs relating to the Bill for emitting Sixty Thouſand Pounds in Bills of Credit, to paſs in lieu of the Bills now extant, which, as you obſerve, muſt be entirely ſunk by the End of the Year 1741. and are at preſent the only Medium of Commerce; you may aſſuredly depend, that I will employ my beſt Offices, conſiſtent with my Duty to the King, that his Majeſty's Royal Leave may be obtain'd for giving my Conſent to a Bill of this Nature.

Jan. 16. 1738-9. J. BELCHER.

On Friday laſt his Excellency was pleaſed to adjourn the Great and General Court or Aſſembly of this Province, to Thurſday the 19th of April next, after having given his Aſſent to the enacting the following Bills, viz.

An Act for erecting a Townſhip in the County of York by the Name of Brunſwick.

An Act in Addition to an Act made in the Eleventh Year of his Majeſty's Reign, intitled, An Act to enable the Proprietors of the ſeveral Townſhips lately granted by the General Court to raiſe Monies for defraying the Charges of ſettling the ſame.

An Act to prevent the unneceſſary Journeying of the Members of the General Court.

An Act in further Addition to, and Explanation of the Act, intitled, An Act for regulating Townſhips, Choice of Town Officers, &c.

N. B. One *Hodges*, a Bookseller, at the Sign of the Looking-Glass upon London-Bridge, having, on the Encouragement given to the above Performance, publish'd a Book, intitled, *Nature Delineated*, which he calls a *New Translation* of the universally admired *Spectacle de la Nature*; 'tis hereby submitted to the Publick, whether the said *Hodges* has exhibited a Translation or an Abridgment of it:

For in *Vol.* I. he has left out two curious and ingenious Letters on the *Extent and Bounds of Reason*; which important Subject takes up at least 20 Pages together in the Original ——In *Vol.* II. the whole Plan of the Work is omitted, which consists of several Pages more ——In *Vol.* III. the *Useful Reflections upon the Whole* are entirely left out, which takes up near 60 Pages in the Original, and are a very instructive and delightful Dissertation, 'on Natural and Reveal'd Religion; on the Attributes of God; on the Generation and Instinct of Plants and Animals; on the Souls 'of Beasts; on Mankind's Desire of Immortality; on the 'Universal Deluge; on the Nature of Light; on the Stars, 'the milky Way and the Rainbow; on Fire, Metals, Glass, 'Etc.' ——In *Vol.* IV. where indeed there are not so many Omissions of several Pages successively, as in each of the others, he has reduc'd 583 Pages of the Original to 296 Pages in English. And, instead of an *Alphabetical Index* to each Volume, so absolutely necessary for a Work of this Kind, he has only a *General Table* of Contents.

In fine, Many beautiful and useful Passages are so curtail'd and mangled in all the 4 Volumes of *Nature Delineated*, that when they are particularly pointed out to the World (which will be done very soon) some People may be inclined perhaps to say, as others have done already, that the Title of *Nature Distorted* would have been more suitable to that Performance.

This Week will be publish'd,

The only short and infallible Cure

for that reigning Disease the SCURVY, and all Scorbutick Humours, tho' arrived to the highest and most inveterate Degree, or of ever so many Years standing, and that without any sensible Evacuation or the least Purging, which by an unaccountable Infatuation is generally advised, although always found rather to increase and confirm the Scurvy than cure it.

By the so much famed and most pleasant Chymical DROPS:

WHICH, without the least Trouble, Confinement, or any Disorder whatever, do at once strike at the true Cause of the Scurvy, and intirely destroy it, and all Scorbutick Humours and Effects, Root and Branch, so as never to return again, as many Thousands of both Sexes have experienced, and as all who take them in 3 Days time will be convinced; for they almost instantly alter the morbid State of the Juices, purify the Blood, sweeten all the Fluids, cleanse them from Impurities, and directly clear the whole Habit from all Spots, Blotches, black and blue Marks, Itchings, foul Eruptions, or Breakings out, Weakness of the Limbs, languid Heaviness of the whole Body, wandering Pains, Weakness of the Back, and all the vast Variety of Symptoms by which the Scurvy imitates and often lies concealed under the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good Appetite, causing a regular and easy Digestion of Food, and curing all windy Effects and Disorders of the first Passages (whence proceed Head-achs, Vapours and other Indispositions) no Bitters nor any other Medicine upon Earth can compare with them, inasmuch that besides infallibly curing the Scurvy in all its Shapes and Appearances, they also assuredly and immediately cure the Green-sickness in Virgins, Worms of all Kinds in young or old, and almost all other Chronick Diseases, (which are chiefly occasioned by Indigestion and flatulent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Restorative, strengthen and enliven the whole Machine, and assoon as taken, make the Patient pleasantly Lightsom, Brisk and Vigorous to admiration, and as good for all Sorts of Persons, to preserve as well as to procure a sound and healthy State of Body.

But the great Reputation these so much fam'd and pleasant Chymical Drops have so universally gain'd among Persons of Eminence, for their suddenly and infallibly curing the Scurvy and all Scorbutick Humours, and other Chronick Diseases, in such an easy and agreeable Manner, have occasioned many to imitate them, some under the same, and others under other Names: Be careful therefore not to be deceiv'd; but be sure to have the Right, which by the Author's special Appointment, are to be had only at the Gentlewoman's, at the Two Blue Posts, in Haydon-Yard, in the Minories, at 3 s. 6 d. a Bottle, with Directions.

The most Fam'd and long Experienced Chymical Drops

For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, *and his Predecessors, in* Boar's-Head-Court, Fleet-street; *and, since Mr.* Parry's *Decease, have been and still are sold only by Mr.* Read *for* 3 s. 6 d. *a Vial, at his House in* White-Fryars. *(N. B. You turn in just by the* Sun Tavern *in* Fleet-street, *and it's the great Corner House in* White-Fryars; JAMES READ, *in great Letters, is wrote over the Door.)*

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA *of the longest standing:*

And of all Sorts of CONSUMPTIONS, *even when so far advanced, as not to be cured by any other Medicine in the World.*

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs. Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding nutritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than as mentioned above.

And by Parity of Reasoning this most excellent Medicine is (and well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin Cough, and Hooping-Cough in Children, having cured Thoutands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore despite the faint Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.
